**MSP® Foundation & Practitioner**

## Course Introduction

---

The MSP® (Managing Successful Programmes) framework is designed to provide organizations with a structured approach to programme management. It equips professionals with the knowledge and skills necessary to effectively manage complex programmes, ensuring that they deliver value and align with strategic goals.

This programme is essential for those involved in managing and delivering change within organizations. It emphasizes the importance of collaboration, stakeholder engagement, and the ability to adapt to challenges. Participants will learn to harness principles and processes that guide successful programme management, ultimately leading to improved outcomes and benefits realization.

## Target Audience

---

- Programme managers
- Project managers
- Team leaders
- Business change managers
- Stakeholders involved in programme management

## Learning Objectives

---

- Understand the principles and processes of MSP
- Equip participants with skills to manage and deliver programmes successfully
- Foster collaboration and stakeholder engagement
