

Audit, Risk and Governance

# Strategic Threat Intelligence Management for Executives

## Course Introduction

---

This course equips senior managers and executives with advanced knowledge and skills to develop, implement, and manage a strategic threat intelligence program. Participants will learn to align threat intelligence with organizational objectives, make data-driven security decisions, and foster a culture of proactive threat management.

## Target Audience

---

- C-Suite Executives (CISO, CEO, COO)
- Senior Security Managers
- Risk Management Executives
- IT Directors
- Compliance Officers
- Business Continuity Managers
- Security Analysts
- Corporate Strategists
- Board Members and Advisors

## Learning Objectives

---

- Understand the strategic role of threat intelligence in organizational security
- Develop skills to create and implement an effective threat intelligence program
- Learn to integrate threat intelligence into business decision-making processes
- Gain insights into emerging threats and their potential business impacts
- Master techniques for measuring and communicating the value of threat intelligence
