## TOGAF 9.2 Certification

## Course Introduction

---

The TOGAF 9 Level 1 and Level 2 course is a 5-day, interactive, classroom-based learning experience. The course covers curriculum of both Level 1 and level 2. The Foundation level content enables participants to successfully complete the associated TOGAF Level 1 exam, known as TOGAF 9 Foundation. The certification provides validation that the candidate has gained knowledge of the terminology, structure, and basic concepts of TOGAF 9, and understands the core principles of Enterprise Architecture and TOGAF. The TOGAF 9 Level 2 content focuses on the practical application of TOGAF™ 9 framework, building on the foundational knowledge and comprehension of Level 1, using practical scenarios to enforce concepts.

## Target Audience

---

- Cloud Computing Engineer
- Computer Network Specialist
- Computer Support Specialist
- Database Administrator
- Information Technology Analyst
- Information Technology Leadership
- Information Security Specialist
- Software/Application Developer
- Web Developer
- Technology sales consultant

## Learning Objectives

---

- The basic concepts of Enterprise Architecture and TOGAF.
- The core concepts and terminology used in TOGAF 9.

- The concept of the Enterprise Continuum; its purpose and constituent parts.
- The concepts of views and viewpoints and their role in communicating with stakeholders.
- The ADM guidelines and techniques.
- How each of the ADM phases contributes to the success of enterprise architecture?
- Understand and apply the ADM phases in development of an enterprise architecture.
- How Architecture Governance contributes to the Architecture Development Cycle?
- How to apply Architecture Governance in development of an enterprise architecture?
- How to apply the TOGAF Architecture Content Framework?
- Understand and apply the concept of Building Blocks.
- How to apply the Stakeholder Management Technique?
- How to apply the TOGAF Content Metamodel?
- How to apply TOGAF recommended techniques when developing an enterprise architecture?
- The TOGAF Technical Reference Model and how to customize it to meet an organization's needs.
- The Integrated Information Infrastructure Reference Model.
- The content of the key deliverables of the ADM cycle.
- How an enterprise architecture can be partitioned to meet the specific needs of an organization?
- The purpose of the Architecture Repository.
- How to apply iteration and different levels of architecture with the ADM?
- How to adapt the ADM for security?
- SOA as a style of architecture.
- The role of architecture maturity models in developing an enterprise architecture.
- The purpose of the Architecture Skills Framework and how to apply it within an organization .

## Course Outline

---

### • Day 01

#### Course Introduction

- Module F13: The TOGAF Certification for People Program
- Module 1: Management Overview
- Module F6: ADM Phases Level 1

- Module F7: ADM Guidelines and Techniques
- Module F11: ADM Deliverables Level 1
- Module F12: TOGAF Reference Models
- Module 2: The TOGAF Framework Components
- Module 3: Introduction to the Architecture Development Method

## • Day 02

### **Module 4: The Enterprise Continuum and Tools**

- Module 5: Architecture Repository
- Module 6: Architecture Content Framework
- Module 7: TOGAF Content Metamodel
- Module 8: Preliminary Phase
- Module 9: Architecture Governance
- Module 10: Business Scenarios
- Module 11: Stakeholder Management
- Module 12: Architecture Views and Viewpoints

## • Day 03

### **Module 13: Building Blocks**

- Module 14: Architecture Implementation Support Techniques
- Module 15: Phase A: Architecture Vision
- Module 16A: Phase B: Business Architecture – Catalogs, Matrices and Diagrams
- Module 16: Phase B: Business Architecture
- Module 17: Phase C: Information Systems Architectures – Overview
- Module 18A: Phase C: Data Architecture – Catalogs, Matrices and Diagrams
- Module 18: Phase C: Data Architecture
- Module 19: The Integrated Information Infrastructure Reference Model

## • Day 04

### **Module 20A: Phase C: Application Architecture – Catalogs, Matrices and Diagrams**

- Module 20: Phase C: Application Architecture
- Module 21: TOGAF Foundation Architecture: the TRM
- Module 22A: Phase D: Technology Architecture – Catalogs, Matrices and Diagrams
- Module 22: Phase D: Technology Architecture
- Module 23: Migration Planning Techniques
- Module 24: Phase E: Opportunities and Solutions

- Module 25: Phase F: Migration Planning
- **Day 05**

### Module 26: Phase G: Implementation Governance

- Module 27: Phase H: Architecture Change Management
- Module 28: ADM Architecture Requirements Management
- Module 29: Architecture Partitioning
- Module 30: Adapting the ADM: Iteration and Levels
- Module 31: Adapting the ADM: Security
- Module 33: Architecture Maturity Models
- Module 34: Architecture Skills Framework

## Confirmed Sessions

FROM	TO	DURATION	FEES	LOCATION
June 30, 2025	July 4, 2025	5 days	4250.00 \$	UAE - Abu Dhabi
Aug. 25, 2025	Aug. 29, 2025	5 days	4950.00 \$	England - London
Oct. 13, 2025	Oct. 17, 2025	5 days	4250.00 \$	UAE - Abu Dhabi
July 20, 2025	July 24, 2025	5 days	4250.00 \$	Oman - Muscat
