

HR Strategy and Training

HR Digital Transformation

Course Introduction

This introductory course is designed to teach principles surrounding an organization's HR transformation through the use of digital technologies and business models. This enables improvement in HR performance as well as efficient leveraging of technology to best meet strategic goals of the organization.

HR digital transformation

The course is live, interactive, and has a modular structure with, case studies and tools to equip you with high level abilities to innovate, digitize and transform their companies. The world as we know today is highly digital and hence, it is very important for companies to be able to compete in the digital economy with skilled workforce. There are a lot of courses available that aim to teach about Digital Transformation but somehow neglect the 'how-to's' of HR digital transformation (successful execution).

Target Audience

Who is this course for, and can benefit the most

- HR Professionals & Leaders – HR Directors, HR Managers, and HR Business Partners looking to drive digital transformation in their organizations.
- CHROs & Senior Executives – Decision-makers responsible for aligning HR strategies with digital business models.
- HRIS & HR Technology Specialists – Professionals involved in HR systems, data analytics, and workforce automation.
- Talent Management & L&D Specialists – Those looking to integrate digital tools into talent acquisition, learning, and employee engagement.
- Business Transformation & Digital Strategy Leaders – Individuals driving change management and digital innovation in HR functions.
