

HR Strategy and Training

**HR Audit**

# Course Introduction

---

## **Mitigate risks**

Human Resource (HR) Auditing is a critical process for organizations to ensure compliance, enhance operational efficiency, and align HR practices with business objectives. It involves systematically reviewing policies, practices, procedures, and systems to identify gaps, mitigate risks, and ensure legal and regulatory compliance. With the dynamic nature of labor laws and organizational requirements, conducting regular HR audits helps organizations remain competitive, minimize liabilities, and foster a positive workplace culture.

This comprehensive training will equip participants with the knowledge and tools necessary to conduct thorough HR audits. Each day focuses on a key component of the auditing process, covering aspects from understanding legal frameworks to evaluating HR metrics. The course emphasizes practical application, ensuring participants can design, implement, and analyze HR audits effectively. By the end of the course, participants will have a robust understanding of auditing processes and the ability to recommend improvements aligned with best practices and organizational goals.

## **Training Course Methodology**

This course is designed to be interactive and participatory, and includes various learning tools to enable the participants to function effectively and efficiently. The course will use sessions, exercises, and case applications, and presentation about proven-by-practice methods, new insights and ideas about the topic and its effects in a corporate world.
