Project & Contract Management

Agile Project Management Practitioner and Foundation

Course Introduction

APMGs Agile Project Management qualification aims to address the needs of those working in a project-focused environment who desire to be Agile. Based on the proven fundamentals within Dynamic Systems Development Method (DSDM), also known as DSDM Atern, this new certification enhances the ability to deliver Projects that require traditional project management standards, rigour and visibility, while at the same time enabling the fast pace, change and empowerment provided by Agile.
