

Internationally Certified Training Programs

Certified Employee Performance Management (Physical)

Course Introduction

This course will clarify key, specific, detailed concepts and will provide practical tools and techniques for implementing, improving or maintaining the company's employee performance management system. Attendees will gain exposure to best practices in the field of performance management and will learn how to establish and use criteria for evaluating performance.

Target Audience

People interested in employee performance management:

Entrepreneurs, analysts and professionals from any field, interested in employee performance management will acquire the knowledge needed to understand the aspects that influence employee engagement and productivity and will access different methods that could help them improve.

Management representatives:

Representatives of top/middle/line management and their respective organizations, regardless of their field of expertise, interested in measuring and evaluating employee performance, will be glad to discover a structured approach to the implementation of an employee performance management system, as well as best practices in the field.

HR professionals:

This course offers HR professionals, such as HR Consultants, HR Managers or HR Associates, the opportunity to have exposure to a rigorous approach to individual performance management and evaluation, through the implementation of an integrated employee performance measurement system based on KPIs, behaviors and competencies.

Starting from the processes and tools already used in their organizations, after completing this course participants can return to their organizations with a more coherent perspective on how an employee performance management system should work.

Learning Objectives

By the end of this training course, participants will be able to:

- Identify the fundamentals of the performance management framework
- Learn how to track the employee performance during each phase of performance management cycle
- Apply key tools to measure employees' results in a fair and objective manner
- Learn how to conduct efficient performance appraisals
- Gain the knowledge of developing a Performance Management System business case
