

Internationally Certified Training Programs

PECB Certified-ISO/IEC 17025 Foundation

Course Introduction

ISO/IEC 17025 Foundation training enables you to learn the basic components to implement and manage a Laboratory Management System (LMS) as specified in ISO/IEC 17025. During this training course, you will be able to understand the different modules of a LMS, including LMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for the “PECB Certificate Holder in ISO/IEC 17025 Foundation” certificate. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach.

Target Audience

- Individuals involved in Testing and Calibration Laboratories Management
- Individuals seeking to gain knowledge about the main processes of Laboratory Management Systems (LMS)
- Individuals interested to pursue a career in Laboratory Management

Learning Objectives

By the end of this training course, participants will be able to:

- Identify the components and operations of a Laboratory Management System (LMS)
Acknowledge the correlation between ISO/IEC 17025 and other standards and regulatory frameworks
- Interpret the approaches, methods and techniques used for the implementation and management of a LMS

Course Outline

- **01 Day One**

Introduction to Laboratory Management System (LMS) concepts as required by ISO/IEC 17025

- **02 Day Two**

Laboratory Management System requirements and Certificate Exam
