

Internationally Certified Training Programs

PECB Certified ISO 31000 Lead Risk Manager

Course Introduction

The ISO 31000 Lead Risk Manager training course helps participants develop their competences to support an organization create and protect value by managing risks, making decisions, and improving performance using the ISO 31000 guidelines. It provides information regarding the core elements and the effective implementation of a risk management framework, the application of the risk management process, and the actions necessary for the successful integration of these elements to meet organizational objectives. Furthermore, it provides guidance on the selection and application of techniques for assessing risks in a wide range of situations.

Upon completion of the training course, participants can sit for the exam and apply to obtain the “PECB Certified ISO 31000 Lead Risk Manager” credential. The credential demonstrates that the participant possesses the theoretical and practical knowledge and professional capabilities to support and lead risk management processes based on ISO 31000 guidelines and best practices in this field.
