

Internationally Certified Training Programs

PECB Certified ISO/IEC 27005:2022 Risk Manager

Course Introduction

The ISO/IEC 27005:2022 Risk Manager training course provides valuable information on risk management concepts and principles outlined by ISO/IEC 27005:2022 and also ISO 31000. The training course provides participants with the necessary knowledge and skills to identify, evaluate, analyze, treat, and communicate information security risks based on ISO/IEC 27005:2022. Furthermore, the training course provides an overview of other best risk assessment methods, such as OCTAVE, MEHARI, EBIOS, NIST, CRAMM, and Harmonized TRA.

The PECB ISO/IEC 27005:2022 Risk Manager certification demonstrates that you comprehend the concepts and principles of information security risk management.

The training course is followed by an exam. After passing the exam, you can apply for the “PECB Certified ISO/IEC 27005:2022 Risk Manager” credential.

Target Audience

This training course is intended for:

- Managers or consultants involved in or responsible for information security in an organization
- Individuals responsible for managing information security risks
- Members of information security teams, IT professionals, and privacy officers
- Individuals responsible for maintaining conformity with the information security requirements of ISO/IEC 27001 in an organization
- Project managers, consultants, or expert advisers seeking to master the management of information security risks

Learning Objectives

Upon the successful completion of this training course, you will be able to:

- Explain the risk management concepts and principles outlined by ISO/IEC 27005:2022 and ISO 31000
- Establish, maintain, and improve an information security risk management framework based on the guidelines of ISO/IEC 27005:2022
- Apply information security risk management processes based on the guidelines of ISO/IEC 27005:2022
- Plan and establish risk communication and consultation activities
