Internationally Certified Training Programs

PECB Certified ISO 42001 Foundation

Course Introduction

Attending the ISO/IEC 42001 Foundation training course is an important step for professionals seeking to enhance their understanding of AIMSs. This course covers the essential aspects of ISO/IEC 42001, including context understanding, policy establishment, risk management planning, support, operation, performance evaluation, emphasizing the importance of internal audits, management reviews, and continual improvement.

By completing this training course, you will gain valuable insights and be prepared for the certificate exam. The "PECB Certificate Holder in ISO/IEC 42001 Foundation" certificate demonstrates a thorough understanding of the fundamental methodologies, requirements, and managerial approaches essential for an effective AIMS. This credential demonstrates that you possess the professional capabilities to contribute to the enhancement of AI governance and ensure compliance, making it an invaluable addition to your professional qualifications.

Target Audience

This training course is intended for:

- Professionals seeking to gain a fundamental understanding of the requirements of ISO/IEC 42001
- Managers and consultants seeking to learn more about artificial intelligence management
- Individuals involved in the management or implementation of AI systems
- Individuals tasked with overseeing AI-related projects

Learning Objectives

After successfully completing the training course, you will be able to:

- Explain the fundamental concepts and principles of artificial intelligence management
- Describe the main requirements of ISO/IEC 42001 for an artificial intelligence management system (AIMS)
- Identify approaches, methods, and techniques used for implementing, managing, and improving an AIMS

Course Outline

- **01 Day One**

  Introduction to artificial intelligence management system (AIMS) and ISO/IEC 42001

- **02 Day Two**

  Artificial intelligence management system (AIMS) and certificate exam
