

Legal and Corporate Law

Advanced Legal Contracts Masterclass

Course Introduction

The **Advanced Legal Contracts Masterclass from BOOST** is an in-depth training program designed for legal professionals, contract managers, and business leaders to enhance their ability to draft, negotiate, and manage complex legal contracts. The course focuses on advanced contract law principles, such as intricate contract terms, risk allocation, dispute resolution, and compliance with legal and regulatory standards. Participants will gain practical skills through case studies and exercises to confidently manage high-value contracts, resolve contract disputes, and align legal agreements with business goals.

Target Audience

This masterclass is aimed at experienced legal professionals, contract managers, senior executives, and business leaders who are involved in overseeing, negotiating, or managing high-value contracts. It is particularly useful for individuals working in sectors such as construction, IT, manufacturing, finance, and government procurement where complex contracts are common.

Learning Objectives

- Understand advanced contract law principles and how to apply them to real-world contracts.
- Draft legally sound and complex contracts, ensuring clarity and enforceability.
- Negotiate complex contract terms with a focus on protecting organizational interests.
- Identify and manage risks such as liability, indemnity, and performance issues in contracts.
- Apply best practices in contract management and compliance to ensure legal and business alignment.

- Manage and resolve disputes effectively using alternative dispute resolution (ADR) methods.
- Integrate business strategies with legal terms to achieve optimal contract outcomes.
- Ensure legal enforceability and compliance in complex contracts.

Course Outline

• Day 01

Advanced Legal Contracting Principles and Frameworks

- Introduction to advanced contract law concepts
- Key elements of a contract: Offer, acceptance, consideration, and intention to create legal relations
- Overview of global legal frameworks and cross-border considerations in contract law
- Analysing complex clauses: Force majeure, confidentiality, non-compete, and exclusivity
- Structuring complex contracts: Long-term vs. short-term agreements
- Identifying and managing risks in contracts: Liability, indemnity, performance, and more

• Day 02

Drafting and Negotiating High-Value Contracts

- Key principles for drafting legally sound and enforceable contracts
- Critical clauses in high-value contracts: Warranties, representations, covenants, and conditions precedent
- Negotiating tips for high-value contracts: Aligning contractual terms with business goals
- Common pitfalls in contract negotiation and how to avoid them
- Interactive workshop: Negotiating a contract clause (e.g., payment terms, dispute resolution)
- Drafting session: Developing clauses for indemnity, liability, and dispute resolution

• Day 03

Risk Allocation and Legal Compliance in Contracts

- Risk management in contracts: Identifying risk areas and allocating responsibility
- Key risk clauses: Limitation of liability, indemnification, and insurance requirements
- Ensuring legal compliance: Adhering to industry regulations and standards in contracts
- Contract compliance monitoring: Tools and techniques for ongoing contract management
- Strategies for enforcing compliance and managing breaches of contract

• Day 04

Dispute Resolution and Termination Clauses

- Understanding dispute resolution mechanisms: Mediation, arbitration, and litigation
- Drafting effective dispute resolution clauses to avoid litigation
- Termination clauses: Conditions under which contracts can be terminated and consequences of termination
- Managing conflicts and disputes within long-term contractual relationships

• Day 05

Practical Applications, Case Studies, and Certification Preparation

- Best practices in contract management and performance oversight
- Understanding legal trends and how they impact businesses and contracts
- Group discussion: Current contract challenges and solutions
- Final group activity: Drafting a complete, complex contract based on a real-world scenario
