

Quality Management & Operational Excellence

# ISO 14001-2015 Internal auditor

## Course Introduction

---

ISO 14001:2015 specifies the requirements for an environmental management system (EMS) that an organization can use to enhance its environmental performance. It is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability. This training course is designed to provide participants with the knowledge in order for them to have an in-depth understanding of the ISO 14001:2015 Environmental Management System (EMS) requirements and learn how to audit your organization based on these requirements.

## Target Audience

---

- practitioners in quality and audits
- Senior members and managers of organisations who need to understand the significance of training employees on quality management
- Quality team members
- Professionals aspiring to undertake a quality-related certification
- Construction project owners
- Design consultants
- Construction contractors
- Architects
- Non-engineering construction professionals

## Learning Objectives

---

- Gain a comprehensive understanding of the ISO 14001:2015 management and auditing process.

- Enhance the skills to assess an organization's capability to manage its environmental management system
- Prepare, conduct and follow-up on ISO 14001:2015 audit activities
- Write factual audit reports based on ISO 14001:2015 requirements
