

Quality Management & Operational Excellence

ISO 14001-2015 Lead Auditor

Course Introduction

Learn to approach ISO 14001 registration from the professional auditor's point of view by focusing on key audit skills that enhance auditing capability. You will also learn critical skills to help you gain insight into the ISO 14001:2015 requirements, audit and create effective documentation, and manage a successful ISO 14001 implementation.

This course is offered in cooperation with AQS Management Systems, an Exemplar Global Certified/ANSI Accredited Course Provider. This course is certified in the Exemplar Global Certification Program, and meets the training portion of the requirements for related auditor certification.

Target Audience

- practitioners in quality and audits
- Senior members and managers of organisations who need to understand the significance of training employees on quality management
- Quality team members
- Professionals aspiring to undertake a quality-related certification
- Construction project owners
- Design consultants
- Construction contractors
- Architects
- Non-engineering construction professionals
