

Internationally Certified Training Programs

PECB Certified ISO 22301 Lead Implementer

Course Introduction

Disasters have various impacts in organizations. Disasters can result from natural events, information security breaches, or various other incidents. They are often unpredictable and that highlights the significance of preparedness in setting your business apart and shaping its future. As such, proper planning is essential in reducing risks, minimizing consequences, and managing the negative impacts of disasters and incidents while ensuring the continuity of daily operations to meet customer needs without interruption.

Establishing a BCMS based on ISO 22301 can help organizations progress toward understanding and managing disasters, incidents, and risks. Therefore, this training course is designed to provide participants with the necessary knowledge and skills to implement a business continuity management system (BCMS) based on the requirements of ISO 22301. By participating in this training course, you will learn the best practices of business continuity management, enabling the establishment of a framework that ensures an organization's continued operational effectiveness during disruptive events.

Upon completing the training course, you are eligible to take the exam. If you pass the exam, you can apply for the “PECB Certified ISO 22301 Lead Implementer” credential. The internationally recognized “PECB Certified ISO 22301 Lead Implementer” certificate demonstrates that you have the professional skills and practical knowledge to implement a BCMS based on the requirements of ISO 22301.

Target Audience

- Managers and consultants involved in business continuity
- Individuals seeking to master the implementation of the business continuity management system
- Individuals responsible for ensuring and maintaining conformity with BCMS requirements within an organization

- Individuals carrying out roles and responsibilities related to the BCMS

Learning Objectives

By the end of this training course, you will be able to:

- Explain the fundamental concepts and principles of a business continuity management system (BCMS) based on ISO 22301
- Interpret the ISO 22301 requirements for a BCMS from the perspective of an implementer
- Initiate and plan the implementation of a BCMS based on ISO 22301, by utilizing PECB's IMS2 Methodology and other best practices
- Apply best practices to support the ongoing effectiveness and improvement of the BCMS based on ISO 22301
- Interpret the requirements for an ISO 22301 certification audit

Course Outline

- **01 DAY ONE**

Introduction to ISO 22301 and initiation of a BCMS implementation
