

Management And Leadership

Visionary Leadership and Strategic Planning

Course Introduction

This training course is designed for executives and senior leaders aiming to develop a strategic mindset to steer their organizations toward future success. Participants will gain a deep understanding of strategic thinking principles, perform environmental scanning and SWOT analysis, and create and implement effective strategic plans. The course also covers how to lead change and maintain a strategic mindset over time. By the end of the program, leaders will be equipped with the tools and strategies needed to think strategically, clearly communicate their vision, and foster a culture of innovation and continuous improvement within their organizations.

Course Features:

- Comprehending strategic thinking and the essence of visionary leadership
- Conducting environmental scanning and SWOT analysis to identify opportunities and threats
- Crafting a strategic plan aligned with the organization's vision and goals
- Implementing and executing the strategic plan effectively
- Leading change and maintaining a strategic mindset over time

Target Audience

- C-level executives
- Business owners and entrepreneurs
- Department heads and managers
- Team leaders and supervisors
- Professionals in strategic planning and management
